

SANKAR VELAMA

SOFTWARE ENGINEER

+44 7429 133994

svelama@outlook.com

in svelama

London, UK

EDUCATION

MSc Mobile Communications
University of East London, UK
2009 – 2010 (1st Distinction)

BEng Electronics & Communications
Anna University, India
2006 – 2009 (1st Distinction)

SKILLS

// BACKEND

- Go (Golang)
- Micro Services Architecture
- REST APIs
- SQL, NoSQL
- Design Patterns
- Test driven development

// MISCELLANEOUS

- Kubernetes (K8s)
- Docker
- Helm Charts
- GitLab
- Azure DevOps
- Azure/AWS services
- Serverless – Azure functions
- Version Control
- HTML, CSS
- Linux & Windows

CAREER SUMMARY

Experienced Software Engineer with 13+ years of experience in building resilient, scalable web and cloud-native applications, using Golang, Kubernetes, and cloud services from Azure/AWS. Well-versed in the design and development of highly available and reliable cloud solutions. Passionate about learning new things, especially on cloud technologies and Kubernetes.

WORK EXPERIENCE

SOFTWARE CONSULTANT

UBS (Synchron) / London / Jan 2023 – Dec 2024

Built multiple Kubernetes solutions that has extended the core functionalities of UBS developer platform and improved the overall efficiency which has resulted in reducing the cost towards public cloud.

- Designed and developed a K8s operator which automates the routings for all the non http traffic such as ssh/tcp connections into the k8s clusters.
- Built K8s admission controller that mutates the incoming pod requests and amends the pod spec to ensure they comply with UBS security policies.
- Designed and developed a sidecar based solution to monitor the pod's to effectively identify the idleness, and automatically terminates such pods to free-up the compute and memory resources.
- Designed and implemented a cloud native solution that works with AKS auto-scaler which guarantees a set of pods gets provisioned without having to wait for the auto-scaler to add a new node
- Contributed to the design and development of the REST API that creates developer environments, such as VS Code, Jupyter notebooks in the browser
- Capturing the requirements, preparing the design, and demonstrating the proof of concepts (POC) to the wider team
- Conducting knowledge transfer sessions on the newly developed features with the team members

CLOUD PLATFORM ENGINEER

Cisco / Chennai, India / Feb 2022 – Aug 2022.

- Led the platform development team to deliver cloud native solutions.
- Got involved in design and development of microservices in Go.
- Contributed towards building REST APIs for the Cisco DNA centre solution.
- Collaborated with clients, stakeholders and upper management to discuss the project objectives.
- Estimated timelines for the project from design until delivery

CERTIFICATIONS

Certified Kubernetes Administrator
Microsoft Certified Trainer
Azure Developer
Azure DevOps Expert
Azure Cloud Solutions Architect
AWS Cloud Solutions Architect

WORK EXPERIENCE CONTINUED

SOFTWARE CONSULTANT

Elekta / London / Jan 2021 – Aug 2021

- Developed two K8s operators which automates the provisioning of object storage as well as PostgreSQL databases.
- Built helm charts for the operators, that helped simplifying the operator deployments.
- Automated the deployment process using the Azure DevOps CI/CD pipelines.
- Documented and trained the platform developers with the newly developed tools and features.

SENIOR DEVELOPER

Transport or London / London / Mar 2020 – Jan 2021

- Designed and built cloud-native solutions for Crossrail network using .Net core, C#, and Azure services
- Participated and contributed to application architecture design and other phases of software development life cycle
- Provided technical expertise and recommendations in assessing new software tools and cloud services
- Partnered with the cross-functional team to create bespoke solutions.

.NET CONSULTANT

Amido Ltd / London / Sep 2019 – Feb 2020

- Design and development of distributed services using Microservice architecture.
- Built RESTful web services and Web API's using ASP.NET Core and C#
- Assisted test engineers to build the automation tests using C# & Selenium
- Collaborated and worked closely with front-end developers, QA and DevOps to Integrate and provision the back-end services

SOFTWARE ENGINEER

CGI Group / Leatherhead / Aug 2018 – Aug 2019

SOFTWARE TEST ENGINEER

Cobham Mission Systems / Wimborne / Jun 2017 – Jul 2018

SOFTWARE APPLICATIONS ENGINEER

COBHAM / Stevenage / Apr 2011 – May 2017
